

[vc_row][vc_column][vc_column_text]Here I am sharing my Experience for Buying CCTV Camera. So here is the Product Review on CCTV Camera Purchased From Hr-sports Afterpay Store.

Product review On CCTV Camera

Home or Business, you need to ensure that your assets, inhabitants are safe from robbers and intruders. Video footage is the best and most common form of evidence in an act of physical damage or loss to your property by an event or action of a person.

[**HR-Sports Afterpay store has a good range of CCTV Security Cameras**](#) that ensure surveillance of your valuable property.

The products I recommend you to buy -

1. 1080P WIRELESS IP CAMERA

This is a 2.0 megapixel IP surveillance camera that sends and receives data over a computer network and the internet. It has a clear day and night vision hence the camera can be run 24×7. It comes with P2P remote access technology and can also be viewed on any smartphone or computer by using the XMEye app. To ensure there is no data loss in an event of a power outage it comes with data protection and it supports storage of up to 128GB in TF-Card recording and playback.

2. 1080P FOUR CHANNEL HDMI CCTV SECURITY CAMERA

This 4 channel security camera is to ensure all round protection to your asset or property. It comes with 4 cameras that can be viewed simultaneously with VGA, HDMI, or even on your smartphone using the XMEye app that remotely enables you to view, capture, and record. It comes with P2P remote access technology and also a motion detection feature of up to 192 areas that immediately sends you an email if any unauthorized motion is detected. It is IP66

certified to ensure all weather protection.

3. 1080P EIGHT CHANNEL HDMI CCTV SECURITY CAMERA 1 TB

This is an ultimate surveillance package. It comes with 8 security cameras interlinked and in which 4 channels can be simultaneously viewed with VGA, HDMI or on your smartphone with the XMEye app. It comes bundled with 1TB Hard Disk Drive that provides ample storage space. It supports P2P remote access support. It is also IP66 certified that enables it to work efficiently in any weather conditions. The motion detection feature supports up to 192 areas and it immediately sends you an email if any unauthorized motion is detected.
